	Certificate Course[3]	3			Elective	3	
	LS/GAR[1]	3					
Total units 15				Total units 12			

This 8-term plan is to be used in conjunction with the academic catalog and degree audit.
Students should see an academic advisor regularly to confirm their academic progress.

Notes

[1] All students are required to complete at least 120 units which includes 35 units of liberal studies and 6 units of diversity courses. In addition, business majors need to complete nine units of CBA General Academic Requirements (GAR). Because some courses can be used to fill multiple requirements, students should consider the CBA General Academic Requirements and the university diversity requirements when selecting liberal studies courses. Using a course to fill multiple requirments does not reduce the total number of units required for graduation, but it does allow additional electives.

For information on the General Academic Requirements consult degree audit in LOUIE, the Academic Catalog or an academic advisior. Students may not fill the university diversity requirement with the same course used to fill the CBA international requirement GAR.

[2] Management 300, Marketing 333, and BA 350W (Junior-level writing) can be taken in an integrated format as BizBlock.

[3] Must complete 3 of 5 Certificate courses during the 7th and 8th terms. Some courses are only offered once a year. Check with your faculty advisor about term-specific courses.

- Many business students will need one or more prerequisite courses (MAT 101X, 102X) before enrolling in MAT 114. The course the student should begin with is determined by taking the Math Placement exam, or by ACT/SAT scores.
- All business majors must complete a minimum of 44 units of coursework outside of the College of Business Administration and 30 units of upper division coursework by the time they graduate.

The Business Professional Program Checklist

The goal of the business student during their first four terms is to complete the courses that serve as the foundation for the College's majors. Satisfactory completion of the lower-division (100/200-level) coursework is required before the student begins to take upper-division business courses (300/400-level) in the professional program. In general, the junior-senior years constitute the professional program of the undergraduate catalog. The following criteria must be met before you begin the upper division courses in the professional program:

- ❒ 2.0 Cumulative GPA
- ❒ 2.75 GPA and a minimum grade of C in ENG 105; MAT 114:119; CIS 120 with lab; ACC 255:256; BA 201:205; and ECO 284:285. These courses are shown in bold on the 8-term plan.
- ❒ 56 Units
- ❒ Completion of 6 Pathways Co-Curricular Activities
