CBI NEWS

The Center for Bioengineering Innovation at Northern Arizona University

In this issue:

• Research Travel
• New Grants
• Papers published
• Events
• Presentations

July Travel

July 6 to 19: Dr. Cory Williams travels to Alaska for research.

June 30 to July 19: Victor Zhang travels to Alaska for research.

July 31 to August 6: Drs. Cory Williams and Loren Buck travel to Las Vegas for the Living in a Seasonal World - 15th International Hibernation Society Symposium.

Newly Funded Grants

Stryker Neurovascular: Creation of synthetic neurovascular thrombus for retrieval device testing (Dr. Tim Becker, investigator).

Presentations

Dr. Kiisa Nishikawa presented “20 Years From Now: What Will Be Different and What Will We Know?” at the 2016 Biomechanics and Neural Control of Movement conference in Mt Sterling, OH.

Dr. Kiisa Nishikawa was an invited speaker for the Arizona Forward event “What Scientists Are Saying About The World & Our Place In It” in Flagstaff, AZ.

Dr. Loren Buck presented “Endocrine Disruption Studies and Indigenous Populations” at the Tribal Environmental Health Summit at NAU’s Native American Cultural Center.

Dr. John Gibbs presented “Consideration of orientation and geometry in active chemical colloids” at the International Workshop on Micro- and Nanomachines in Hannover, Germany.

Papers Published

Events

The Fall 2016 CBI Lecture Series speakers have been announced! Check back at http://nau.edu/CBI/Events/ soon for more details.

September 23 - Dr. Chelsea Magin
October 14 - Dr. Jennifer Hoffmann
November 18 - Dr. Rachael Sirianni

All events will take place on Fridays from 1-2pm in Biology (building 21 at 617 S Beaver St) room 256.
