Student Accomplishments

During the university’s fiscal year 2017, the Center supported 14 graduate students and 29 undergraduate research participants. These trainees gave 23 presentations at local, regional, and national scientific meetings, and received several awards for their research.

Bronson Pinto, a PhD candidate in Dr. Rob Kellar’s lab, won the ‘Imi Na‘auao merit scholarship from Kamehameha Schools!

Victor Zhang, a graduate student in Dr. Loren Buck’s lab, presented “Determinants of activity patterns in urban striped skunks (Mephitis mephitis)” at the 97th Annual Meeting of the American Society of Mammologists, University of Idaho, Moscow, ID.

Newly Funded Grants

Buck L, NSF IOS 1745779, "Meeting: Predicting vertebrate responses to a changing environment: modeling genomes to phenomes to populations (G2P2PoP), Northern Arizona University, March, 2018," $40,000, 2017-18

Buck L, NSF RCN, “Predicting vertebrate responses to a changing climate: modeling genomes to phenomes to populations (G2P2PoP),” $500,000, 2017-22.

Papers Published

LeMoyne R, Mastroianni T; 39th Annual International IEEE EMBS Conference; Virtual Proprioception for eccentric training (Jeju, South Korea; July 2017)

LeMoyne R, Mastroianni T; 39th Annual International IEEE EMBS Conference; Wireless gyroscope platform enabled by a portable media device for quantifying wobble board therapy (Jeju, South Korea; July 2017)

Events

The CBI Lecture Series is gearing up for another semester! Please join us for our first event of Fall 2017.

Small Molecule HIF-2a Antagonists and Their Therapeutic Applications

Dr. Eli Wallace, Chief Scientific Officer at Peloton Therapeutics http://pelotontherapeutics.com/leadership-eli-wallace/

Friday, September 29, 3-4pm

Science and Health Building room 105 (building 36 on the map https://www2.nau.edu/nau-map/)
