### CMP 106: Month-End Closing Procedures

#### Reporting:

Month end reports for PS Financials are available in [Enterprise Reporting](#) and can be run on demand throughout the month. Enterprise Reporting reports will have an "as of" date to identify the last update for a particular accounting period. Once an accounting period is closed, the last "as of" date for the accounting period should reflect the close date for the period. Please note that on Friday's after the Month End Close, reports will still show the month as being open. This is a timing issue that only effects reporting on the day after the Month End Close.

#### Reminders:

See important reminders for processing transactions during month end close period below:

- Please make sure **receipts** for goods/services received in closing month are entered before the close date.
- Please approve any **unapproved travel authorizations** and expense reports that were entered and budget checked in closing month before the close.
- Please approve any **unapproved Departmental Journals (IDT, IPT, and IST)** that were entered and budget checked in closing month before the close date. A re-edit process will be run the day after the close to un-budget check closing month journals not approved. Those journals will have to be copied to a new journal as you cannot change the accounting date on journals. See reviewing journal status procedures at: [https://nau.edu/its/learn/psfinancials\\_gl\\_Journal\\_Edit.Copy.Search/#ID0EJC](https://nau.edu/its/learn/psfinancials_gl_Journal_Edit.Copy.Search/#ID0EJC)
- All procurement card transactions for the month must be verified, approved and budget checked as of the date that is transmitted in the reminder e-mail from Purchasing.
