University Policy

POLICY

CMP 430-26: Voluntary Fund Transfers

Voluntary fund transfers may be made between PeopleSoft Financial Departments to fund expense activity in the receiving (transfer-in) Department. Transfers are not allowed for state departments (Fund Code beginning with a "1", Speedtype suffix *F11 or *F12) and agency units (Fund Code beginning with a "7" or Speedtype suffix of *F7*). As a general rule, voluntary fund transfers should be used to provide funding support for expense activity outside the funding Department's Program Code and that is more appropriate for another Department expense activity type (see [CMP 202](#): Establishment of Departments). Some examples include:

College's administrative unit (Academic Support) providing funding support to Student Life (Student Services) for a cultural event,

Central administrative unit (Institutional Support) funding a College's faculty development initiative (Academic Support).

College's administrative unit (Academic Support) funding a cost share department for grant cost share commitments.

A transfer-out to a Department must be offset by a transfer-in from another Department for the same dollar amount.

PROCEDURE

Transfers between PS Departments are processed through a Departmental Journal (IDT journal source). Valid journals are routed to the department being charged for approval. The journal is then routed to Financial Accounting Services for final approval if less than \$5,000. Transfers greater than \$5,000 are routed to the Budget Office prior to being routed to Financial Accounting Services for final approval.
