Attention High School Teachers & College Faculty!

Are you interested in helping students:
- Build 21st century workforce skills?
- Understand and analyze data?
- Engage in authentic projects that provide marketable job skills?

Seeking participants for ADVANCED GEOCACHE

APPLY TODAY!

Application Deadline: May 2, 2014

WHAT: A paid professional development opportunity to design a geospatial technology-integrated project based instructional unit or a Geospatial Semester course that may be offered for dual credit at your high school and MCC or NAU

WHEN: Monday, July 21, 2014 through Friday, July 25, 2014 (8am-4pm) at Mesa Community College

WHO: Teachers who can demonstrate basic Esri ArcMap skills interested in learning how to teach students to use the technologies within a project-based instructional framework.

BENEFITS TO TEACHERS:
- High quality, professional learning experiences
- Some travel assistance to MCC in Mesa
- Up to $1,375 stipend for full participation in all project components
- Instructional and technical support as you implement
- Opportunities to work alongside high school and college faculty
- Opportunity for lab upgrades for your high school
- Opportunities to travel to the Esri Education User Conference in San Diego, CA
