(check one):

_____ Yes, I am committed to participate in the 2015-2016 Upward Bound Math and Science Program and understand that in signing this contract I am committing to completing at least 75% of the assignments for the fall and spring semesters of the program. I also, understand that to be eligible to return to the Academy portion of the program in summer 2016, I must also earn at least a ‘C+’ (75%) in all of my core classes (English, math, science, social science, foreign language and fine arts) in both the fall and spring semesters.

_____ No, I am unable to participate in the fall 2015 and spring 2016 components of the Upward Bound Math and Science Program and understand in order to be considered for the 2016 summer component I would need to reapply as a new participant. I also understand that to be eligible to apply as a new student I would have to be a freshman or sophomore. Please send an explanation of the reason you cannot participate. The UBMS staff will consider your reason and is likely to offer you a conditionally admitted status. We would need to agree on the standards. To qualify for this consideration we will need a letter from you explaining your reason for not participating this fall. If your concerns are regarding the spring semester we encourage you to check Yes above. It is possible things may change before spring.
