NAU IRB Guidance on Research at the University Union

The University Union has implemented the following policy for students, faculty, and researchers wishing to conduct research at the Union:

• Surveys are limited to class projects for students to learn how to manipulate data
• Surveys are permitted in the indoor and outdoor vendor locations only
• Vendor locations must be scheduled with the Union Events Coordinator
• **Vendor** rules and regulations must be followed
• Students must provide copies of the assignment, class title, professor's name, and a copy of the survey for review

The University Union reserves the right to deny surveys that might be deemed inappropriate. In most cases, surveys must go through the Institutional Review Board for content approval.
