Memorandum

To: DR. Thomas D. Sick, School of Earth Science & Environmental Sustainability

From: Lenus L. Bonham, Chair, Space Committee

Date: August 17, 2012

Subject: Assignment of Office Space Within Suite 130 Within Applied Research & Development

Hi President, Vice President for Research, and News Committee Members,

The LIC is located on the southeast corner of the campus, and its mission is to facilitate collaborative research and education programs. The LIC's focus is on landscape and ecosystem studies and planning, as well as training and educational programs. The new structure will accommodate the leadership and staff positions that will carry out the work of the LIC.

The assignment of office space is for the Landscape Conservation Initiative, which is a new entity from the Lab of the Department of Geology and Geophysics. The LIC's position within Office 130, Office 132, and the composite position of 130/132 only. The LIC understands that this request is for Office 131.62 and the composite position of 130/132 only. The LIC has been recommended for approval to the President and has received the request. The committee has been recommended for approval to the President and has received the request.

Your request for office space was within the Applied Research & Development Building (ARD) in Suite 130.

businesses. In addition, the LT is closely associated with and helping to include Conservation Management agencies, non-profit organizations, educational partners and non-profit, allowing them to serve over 20 external partners, including state and federal land and resource conservation initiatives, and the attribute of landscape design and conservation biology.

The requested space will meet current and projected space needs of the LT. The landscape community's multi-disciplinary and multi-field perspectives, as well as multiple educational and training opportunities, will be addressed by the goals of research excellence and organizational management, according to the work of the LT directly supports the University and conservation biology, and the work of the LT. The development of a collaborative working environment, as well as taking advantage of landscape opportunities, fosters new collaborative relationships with the landscape, providing expansion for sustainable energy solutions and opportunities for expansion that will result in no disruption of building occupants, while maintaining the mission of landscape design. The development of landscape design, and the LT takes a modern approach in its importance. The LT believes that the landscape design and conservation biology, is a vital component to the university mission. The LT has received the 2015 Award from the Association of Landscape Design and Conservation Biology.

The landscape conservation initiative (LCI) has two years of funding committed through TIF. A justification based on the university strategic priorities, personal needs, and project growth of faculty.

Space Planning and Space Utilization Committee
Thanks, Tom! Whatever portion they have applied for, support of Tom S. and his group be awarded the balance of the space, or

I received a letter from the space committee to that effect, I am in full committee has already acted on this and assigned a portion of Suite 130 to collaborations with Tom S. As for the space request for ISES, the space will be the "store front" for ISES, and I think useful for potential interested in sharing the space with Tom S. and his group in ARD. This

Hi Paul -

Sustainable Energy Solutions (ISES) in Suite 130 of the ARD building: the proposal co-location of the Landscape Conservation Initiative (LCI) and the Institute for Endorsement from Dean Paul Jagodzinski, from Dean Paul Jagodzinski, from Paul Jagodzinski, All the best,

For Sustainable Energy Solutions will enhance the efforts of both groups. In addition, having members of LCI collaborate with members of the Institute successful. Within CENS it is important that I have the resources required to be of the requested space. Since the LCI is part of a larger initiative at NAL and Landscape Conservation Initiative (LCI) will greatly benefit by the allocation I am happy to support your request for space in Suite 130 in ARD. This
