Recipients are typically leading scholars, discoverers, inventors, authors, artists, musicians, entrepreneurs, social activists, and leaders in education, business, politics or government. Occasionally, honorary degrees are awarded to people who have rendered lifelong service to the university through board membership, volunteerism, or major financial contributions.

The following pages recognize the 2020-2021 Honorary Doctoral Degree recipients for Northern Arizona University.

Today, under Gregory's leadership, The NARBHA Institute partners with bio science, health centers, academia and communities in discovery, transformative solutions and integrated health. During her tenure, and through a series of collaborative endeavors,

an ecosystem of health equity has been developed and funded, including a family medicine residency, a genomic collaborative, and an endowed chair aligning criminal justice and behavioral health.

Gregory is a nationally recognized healthcare executive in acute hospital and healthcare system leadership. She is a Fellow at The National Association of Corporate Directors and the American College of Healthcare Executives. Locally, she is a member of the Governing Board of North Country Healthcare and also a member of the Northern Arizona Leadership Alliance.

of human connections, adventure, and the beauty of the human spirit, which are themes integrated in her Spanish classes. She considers herself and her students global citizens who have the ability to make a positive difference in the world every day. She has risen as a teacher leader in her school. Wyffels reminds her students and colleagues that communication must value listening as much as speaking. With the COVID-19 school closures Wyffels has collaborated with her department and focused on opportunities to innovate and reinvent their classrooms. She leads her classroom and school with integrity, honesty, and positivity.

As the 2021 Arizona Teacher of the Year, Wyffels has centered her focus on renewing education during the pandemic. She is specifically exploring why we should not go back to “normal”, and how we should start new instead. She places equity and teacher expertise at the center of her work. Wyffels believes that reflection and collaboration are key to guide the process in renewing our systems and practices in regards to student learning, instruction, approach, equity, inclusiveness, technology, community, and the overall purpose of school.

The Academic Regalia

In the twelfth century, as scholars began to organize themselves into guilds called “universities,” a distinctive costume called the “scholar’s gown” also began to emerge.

The gown was originally black (to better hide ink stains) and voluminous for warmth. It also had a hood that could be pulled over the head for protection from rain and served in fair weather as a carrying pouch for such scholarly essentials as chalk, spare pens, or a boar’s tooth for smoothing the surface of parchment.

The square mortarboard worn today is a stylized representation of a stocking cap especially designed to hold a small book secure atop a scholar’s head.

Scholarly rank and discipline are indicated by the cut of the gown and colors of the hood and tassel.

- A bachelor’s gown is blue and untrimmed, has pointed sleeves, and reaches only to the knees.
- The tassels are color coded by academic discipline: white for arts, letters, and humanities; drab for commerce, accountancy, and business; lilac for dental hygiene; copper for economics; light blue for education; orange for engineering; brown for the fine arts, including architecture; russet for forestry; crimson for journalism; green for medicine; pink for music; apricot for nursing; silver gray for oratory (speech); dark blue for philosophy; sage green for physical education; teal for physical therapy; peacock blue for public administration, including foreign services; salmon pink for public health; golden yellow for science; and citron for social work.
- Students graduating from the Honors College wear a golden stole emblazoned with the word “Honors.”
- Bachelor’s candidates with a cumulative GPA in the top 5 percent of their college will be awarded Summa Cum Laude (With Highest Praise) and wear a gold honor cord.
- Bachelor’s candidates with a cumulative GPA in the top 10 percent of their college will be awarded Magna Cum Laude (With Great Praise) and wear a navy blue honor cord.
- Bachelor’s candidates with a cumulative GPA in the top 20 percent of their college will be awarded Cum Laude (With Praise) and wear a light blue honor cord.
- The master gown is blue and untrimmed but has closed sleeves in the shape of an arc.
- Master candidates who earn a 3.90 to 4.00 grade point average graduate “with distinction” and wear a royal blue and gold cord.
- Doctoral candidates wear a blue gown faced with blue velvet panels and three velvet bars on bell-shaped sleeves.
- The color of the silk or velvet band on the border of the hood indicates the discipline: dark blue for philosophy, brown for fine arts, orange for engineering, pink for music, white for liberal arts, light blue for education, and golden yellow for science.

The Presidential Medallion

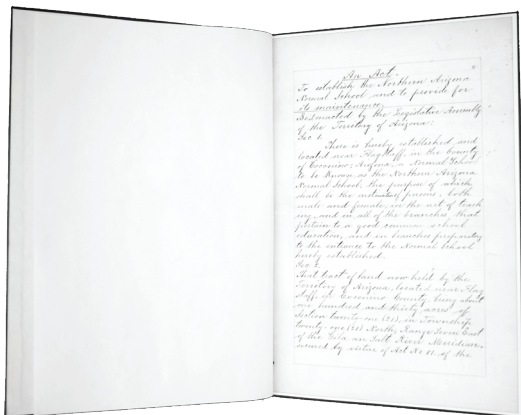

It is customary at Northern Arizona University to present incoming presidents with a medallion as a congratulatory symbol of the institution's highest office. When Rita Hartung Cheng began her tenure as the sixteenth president of Northern Arizona University, professor emeritus Joe Cornett handcrafted a three-and-one-quarter-inch circular medallion made of sterling silver. The pendant includes representations of Arizona and Northern Arizona University. Mountains, inlaid with turquoise and mother of pearl, depict the San Francisco Peaks in Flagstaff, home of the main campus. Rays in the top half are reminiscent of the state flag.

The Charter

The origins of Northern Arizona University can be traced back to the 41st House Bill of the Twentieth Territorial Legislative Assembly of Arizona.

A bill dealing with a large, unfinished, territorial building south of Flagstaff was passed and signed into law on March 11, 1899, by Territorial Governor Nathan Oakes Murphy. The seven-page, handwritten bill laid the legal foundation for the creation of Northern Arizona Normal School, provided for the completion of the building that would become known as NAU's "Old Main," and provided the means for the future upkeep of the institution. Northern Arizona Normal School opened its doors on September 11, 1899, with an initial enrollment of twenty-three students and Almon Nicholas Taylor acting as president and one of only two faculty members. The document is included with other traditional elements at commencement as a physical reminder of the importance of education to early Arizona, and it illustrates the evolution of both NAU and the state of Arizona to the present day.

Ceremonial Academic Mace

The mace was originally a weapon, made of iron and designed to smash an opponent's armor. It was carried in battle by princes and medieval bishops, who were forbidden by canon law to shed blood. Throughout the Middle Ages, the mace became a more elaborate weapon, and by the fourteenth century, it was carried by the king's bodyguard, the serjeant-at-mace, to protect the king's person. It thus became a protective symbol of lawful authority, and from it, the ceremonial mace emerged. Much like a scepter carried by royalty, the mace was a symbol of the power and authority of the city mayors and university rectors.

Like the rector of a medieval university, the modern university president is charged with the protection of the special mission that society has vested in higher education. The mission is the acquisition, preservation, and transmission of knowledge in the service of society. Thus, the academic mace symbolizes the academic sovereignty of the university and serves notice that the president will act to preserve and protect the mission of the university. To mark the beginning and end of the ceremony, the president of the NAU Faculty Senate brings forward and retrieves the academic mace.

The ceremonial mace of Northern Arizona University was created in 1979 by Dr. William F. Nietmann of the university faculty. It is forty-four inches long and has been designed to represent a number of organizations significant and distinctive to the state of Arizona. It is made primarily of Arizona walnut and incorporates a variety of materials characteristic of the state. The head is decorated with five minerals or stones, each inlaid with silver and set in a different wood, and is capped with malachite, a source mineral of copper, selected to represent the industry. Obsidian from the San Francisco Peaks represents the volcanic mountains, plateaus, and national forests so abundant in the area. Precambrian schist from the bottom of the Grand Canyon, about 1.75 billion years old, is set in juniper and represents Arizona's national parks. A fragment of metallic meteorite, set in aspen, was chosen to represent the American exploration of space by the astronomical observatories in Arizona and the U.S. Geological Survey. The last mineral is turquoise, set in ponderosa pine, chosen to represent the Native American tribes of Arizona.

Alma Mater

The Northern Arizona University Alma Mater was created by a young freshman named Ella Lee Marr LaPointe, who never suspected her work would go down in history. In 1931, Arizona State Teachers College sponsored an Alma Mater contest and LaPointe, who did not know how to read or write music, simply put on a one-shot performance of her suggestion for the faculty judges. When the decision day came, a vocal quartet performed the chosen piece on stage and, when they began to sing, LaPointe was astounded to hear her own music, and even more shocked to receive the contest prize—a \$10 gold piece in a plush case.

Hail Alma Mater,
Hail NAU
Thy name forever
A guiding light so true.

Strong as the pine trees,
Our love will never fail,
To thee, Alma Mater,
Hail! Hail! Hail!
