Honors College

Motivated students

Kaitlyn Parra

Microbiology

Kaitlyn is working closely with biological sciences assistant professor Bridget Barker on a Pathogen and Microbiome Institute research project studying Valley Fever.

“I really wanted to go into medicine. And now that I’m here at NAU, I couldn’t envision doing anything else.”

Kyle Ghaby

Chemistry and Biomedical Sciences

Kyle investigates new ways to make insulin temperature-resistant so it doesn’t require refrigeration.

“When you learn about life on this scale, there’s almost a philosophical aspect that really changes your perspective on life and the world.”

- hands-on experiences
- access to mentors
- connection to academics
- financial support

Our students conduct experimental research, present at national conferences, and publish scientific papers alongside professors.

Honors College

Admission to Honors College

- submit two online essays and a resume
- 3.50 GPA required for transfer students
- scholarship consideration
