

# 3 Minute Research Presentation (3MRP) Competition Spring 2025

**INFORMATION SESSION: View recording at link below prior to FEBRUARY 1<sup>st</sup>**  
**[NAU 3 Minute Research Presentation | NAU Office of Graduate and Professional Studies](#)**

**RECORDED PRACTICE VIDEO & SLIDE SUBMISSION DEADLINE:  
SUNDAY, FEBRUARY 16<sup>th</sup>, 2025**

Students from all graduate academic programs and from all campuses including the Phoenix Biomedical Campus, NAU Online, and statewide campuses are encouraged to participate.

## **Purpose**

The Office of Graduate and Professional Studies, in collaboration with the Office of the Provost, the Office of the Vice President for Research, Cline Library, and the academic colleges, is hosting the annual 3-Minute Research Presentation (3MRP) Competition. The 3MRP Competition provides an opportunity for NAU graduate students to present research or scholarly work that they are conducting for a thesis, dissertation, creative work, or non-thesis research capstone project that they are working on while pursuing their master's or doctoral degree at NAU to an educated, non-specialist audience in just three minutes. This professional development opportunity is designed to enhance graduate students' communication skills as well as their capacity to effectively present research, scholarship, or creative work.

## **Background**

The 3MRP is modeled after the [Three Minute Thesis \(3MT®\)](#) competition, which was first developed by the University of Queensland in 2008. This form of research communication is aimed at "developing academic, presentation, and research communication skills and supports the development of research students' capacity to effectively explain their research in three minutes in a language appropriate to an intelligent but non-specialist audience."

For presentation examples, visit the NAU [3MRP webpage](#), which provides links to excellent presentations made by students from different disciplines and other resources. You may also view presentations from previous preliminary heats and final presentations on [YouTube](#) and hear previous 3MRP competitors talk about their [3MRP experience](#).

### Presentation Information

The Office of Graduate and Professional Studies has prepared a recorded information session that is required to view **by February 1<sup>st</sup>** in preparation for the 3MRP presentations. The information session covers event rules, tips for success and resources.

Students will present their research/creative work through a recorded practice session due by **February 16<sup>th</sup>**, followed by the preliminary heat competition on **March 25<sup>th</sup> & 26<sup>th</sup>** via Zoom. The top presentations from the preliminary heats will advance to the in-person final competition.

The finalists will present their three-minute presentations in-person on **Thursday, April 17, 2025, from 3:30pm – 5:00pm at NAU-Ashurst Auditorium**. Prizes will be awarded for the top three winners. Finalists will receive additional information about presenting in the finals.

### Student Eligibility

- The competition is open to master's and doctoral students in [good academic standing](#), who have made substantial progress on research and analysis or creative work related to their academic program. Students from all academic programs are encouraged to participate.
- Presentations must be based on research directly related to the student's thesis, dissertation, creative work, current research capstone project, or other similar projects. Research related to past or current employment (outside of NAU) will not be accepted.
- Students do not need to have complete data analysis or be "defense ready" to participate in the 3MRP competition. However, we are looking for students who have made progress on their project and can prepare a presentation that addresses the scope, significance, and impact of their work. Presenting preliminary data, pilot study data, and preliminary results is fine; results do not necessarily need to be conclusive.
- Students must be enrolled at NAU as a graduate student during the spring semester.
- Participants from previous 3MRP events are eligible to participate, however the top 3 finishers from previous 3MRPs are not eligible to compete.
- All competitors must watch the recorded information session and submit a recorded practice presentation by the due date.
- All competitors will be asked to agree to be recorded and allow media exposure for their presentation and research.

### Application Submission

Practice Presentation/Slide must be submitted to [3MRP@nau.edu](mailto:3MRP@nau.edu) by **Sunday, February 16<sup>th</sup>**.
