Approved by (faculty mentor), NAU School of Forestry:

yes no

Signature: Date:

Comments:

**Please answer the following questions. Be thoughtful in your responses. Complete and detailed answers will indicate that you have carefully considered how and why your internship should qualify for academic credit.**

Describe the connection between your internship and management of natural resources:

Your internship should build upon concepts, theories and skills from your academic coursework. Identify courses in your major and their relevancy in preparing you for this internship:

Explain any connection you see between this internship and your chosen forestry focus area:

Describe the independent project that you will conduct and its link to natural resources management. Explain what resources you will need, your timeline, the final product you will create, and how it will be a benefit to your organization or to the field of forestry. Be as specific as possible.

How will working for this organization fit with your major and your career goals?

Go to <http://stats.bls.gov/oco/> to select the occupation that best fits your internship. Review the nature of the work, the employment outlook, and training and qualifications. Be specific and identify at least four skill areas that you will be able to develop from your internship that are needed in the profession. Assess your current level of skill and expertise in that area and your goals for improvement.

**Knowledge/Skill/Ability (KSA):**

Current level of expertise:

Desired skill level:

How you plan to develop in this area during your internship:
