

## **Pima Community College Pathway: BSF Forestry at NAU**

College of Engineering, Forestry and Natural Sciences (CEFNS)

Incoming Transfer Students planning on completion of a Forestry major

Catalog year: 2015 onward

### **Recommended Courses:**

- BIO 181IN General Biology I & Lab (4)
- BIO 182IN General Biology II & Lab (4)
- CHM 130IN Fundamental Chemistry & Lab (5)
- ECN 200 Basic Economic Principles (3) *OR* (ECN 201)
- WRT 101 & 102 Writing I/II (6 total)
- SPE 110 Public Speaking (3)
- MAT 187 Precalculus (5) *OR* MAT 151 & MAT 182 (6 total)
- MAT 167 Introductory Statistics (3)

**Note:** The above classes transfer directly to the pre-professional Forestry degree.

This pathway should be discussed with your NAU advisor as some course/s offerings are subject to change.

### **Considerations:**

- Additional application required, check NAU department [website](#) for deadlines.
- The professional program only accepts a cohort of students every fall.
- Additional [certificate](#) is required for degree completion.
- Early transition in the spring semester to take Forestry pre-professional courses is recommended.
- Make sure you talk to your community college advisor about completing your AGEC or Associates degree requirements and paperwork (if applicable) so everything transfers correctly to NAU.

### **Questions? Contact the Forestry advisor:**

## **What Can I Do with a Bachelor of Science in Forestry?**

Are you happiest when you're outdoors? Would you like to protect the environment for future generations? Through work at NAU's School of Forestry, you will learn to become a competent professional forester and land steward. Learn all aspects of forest ecosystems and their management. Graduate prepared for a career in the private sector or with a public land management agency. You will experience innovative and holistic approaches to understanding forestry. Our professional core (4 semesters of integrated study) will allow you to build a lasting career and personal relationships. The School of Forestry is a national and international leader in natural resource education and forest research, with a deep commitment to understanding and protecting the environment.

### **Career opportunities that might be pursued:**

- Private timber or consulting companies
- Federal agencies
- State land departments
- Arizona Fish & Game

### **Further education could lead to:**

- Forest manager
- Government manager
- University professor
- Researcher
