

Department of Physician Assistant Studies

Update on DACA Applicants

The PA program accepts applications from DACA applicants. DACA applicants can be admitted to the program through the traditional competitive admissions process. DACA status is not considered in admissions decisions.

The following points must be disclosed and considered by applicants, all of which are determined by Arizona state law:

1. DACA students pay out-of-state tuition rates*
2. DACA students do not qualify for federal financial aid
3. DACA graduates cannot practice as a PA in the state of Arizona after graduation

*some exceptions for Arizona high school graduates may apply; see links below
