Dear Dr. Craig,

Congratulations! The Commission on Accreditation of Athletic Training Education has reviewed your multi-campus documentation and has extended your program’s accreditation to include the Northern Arizona University Athletic Training Program at the Phoenix Biomedical Campus. Your program’s next comprehensive review, including a self-study and on-site review for both campuses, is scheduled to occur during the 2019 - 2020 academic year with the next self-study due date of July 1, 2029.

The institution is reminded however, that continued compliance with the most recent Standards is expected at both campuses. The program is encouraged to review the 2012 Standards regularly to ensure continuing compliance, and is reminded that Annual Reports are due each year within eAccreditation.

The program should update eAccreditation with information from both campuses and is reminded that they will be invoiced for only one Annual Fee each year. However, during your next comprehensive review, the Site Visit Team will visit both campuses and additional expenses may be charged to the program over and above the $5000 Site Visit Fee. Questions about these additional expenses should be directed to the CAATE Office.

The Commission on Accreditation of Athletic Training Education recognizes the faculty, staff, and administrators for their commitment to the advancement of education in Athletic Training, as well as your dedication to the preparation of qualified Athletic Training professionals.

Sincerely,

Mark Merrick, PhD, ATC, FNATA
President, CAATE
