

ON-RAMP

Outstanding *New-student* in the
Robotics And Mechatronics Program

AWARD

The Mechatronics and Robotics Engineering (MRE) program at Northern Arizona University is proud to announce the **ON-RAMP Award**, recognizing exceptional incoming students who have demonstrated outstanding achievement in robotics prior to joining NAU.

NAU

ARIZONA
UNIVERSITY

Mechanical
Engineering

Eligibility & Criteria

- Applicants must be incoming NAU freshmen enrolling in the MRE program.
- Must have evidence of excellence in robotics through projects, competitions, or other significant achievements.
- 3 Awards given to outstanding students.
- Each recipient will receive a **paid undergraduate research stipend** for up to 10 hours per week in one of NAU's state-of-the-art robotics research labs, including:

The Biomechatronics Laboratory
Dr. Zach Lerner

The Raz Lab
Dr. Reza Razavian

Application

- Submit the short, online application form. Provide a summary of your experience in robotics, including details about projects, competitions, or accomplishments.
- Include supporting material such as videos, photos, or links to your work.
- Applications are due **May 1st, 2025**.
- Final selection will be made following 10-minute interviews with applicants.
