

We CAN beat
COVID-19

Register for a vaccine at **no cost** to you.
Call **2-1-1** or visit **vaccines.gov** for a vaccination site near you.

With the Delta variant on the rise and many returning to in-person work, now more than ever is the best time to protect yourself and your family against coronavirus (COVID-19). Get the information you need to make an informed decision:

? I know about COVID-19 but what is different about the Delta variant?

The Delta variant is a more contagious strain of COVID-19, and it spreads quickly. If you are unvaccinated, you are at a higher risk of getting severely ill with the virus or getting the virus and spreading it to loved ones. COVID-19 vaccines help your body fight off the virus. For information on the Delta variant, visit [CDC.gov/coronavirus](https://www.cdc.gov/coronavirus) or [COVID19.NIH.gov](https://www.covid19.nih.gov).

? I am concerned about the short and long-term side effects of getting vaccinated?

If you think you might have a severe allergic reaction, please talk to your doctor. However, many people experience minor side effects — a normal sign that your body is building protection. Common side effects are redness and swelling at the injection site, tiredness, chills, or fever which goes away in a few days.

? When can we get a booster dose?

HHS has developed a plan to offer COVID-19 booster shots, with individuals being eligible starting 8 months after receiving their second dose of an mRNA vaccine. The booster will be rolled out when approved by the FDA. Stay tuned!

? Is the COVID-19 vaccine safe for all religions?

Yes! COVID-19 vaccines are deemed safe by many religious leaders. The vaccines have received approval from many religious leaders and organizations, including Pope Francis, the British Islamic Medical Association, and the leader of Tibetan Buddhism, Dalai Lama. COVID-19 vaccines contain no animal products.

NIH director Dr. Francis Collins said the COVID vaccine is "an answer to prayer." By becoming vaccinated, you're doing an act of love and promoting the common good and caring for each other!

WHAT IS ARIZONA CEAL?

The Arizona Community Engagement Alliance (CEAL) Against COVID-19 Disparities is part of a 21-state alliance funded by the National Institute of Health (NIH). AZ CEAL works closely with the communities hit hardest by COVID-19. The AZ CEAL conducts Community-Engaged research and OUTREACH to increase COVID-19 AWARENESS and EDUCATION among communities disproportionately affected by COVID-19 and to reduce misinformation and mistrust. For more information on NIH CEAL, visit COVID19COMMUNITY.NIH.GOV

AZ CEAL LEADERSHIP

The statewide efforts are coordinated by Arizona State University, Mayo Clinic, Northern Arizona University, and University of Arizona
