## Understanding Your NAU Math Placement Test Score

| Math Placement <br> Test Score | Math <br> Course <br> Eligibility |
| :---: | :---: |
| PMTC less than 30 | MAT 100 |
| PMTC 30-39 | MAT 108 <br> MAT 114 <br> MAT 150 |
| PMTC 40-49 | STA 270 |
| PMTC 50-59 | MAT 119 |
| MAT 121 |  |
| PMTC 60-64 | MAT 125 |
| PMTC 65 + | MAT 131 |

To use the chart, find your PMTC score in the left-hand column and see the corresponding math course eligibility in the right-hand column. For example, a student with a PMTC score of 50 is eligible to enroll in MAT 119, 121 or 125.

Your math placement test score is only one of the possible items used for determining your math placement at NAU. We use the highest math placement from among the following items:

1. Your completed high school math classes (4 years at the appropriate level)
2. Your ACT math sub-score.
3. Your SAT math sub-score.
4. Your Math Placement Test score
5. Your Core High School GPA (graduation spring 2022 or later)

You can also receive math placement through math transfer classes, including dual enrollment, as well as credit earned from AP test scores.
