Clinical Preceptor evaluates the student's level of competence based on the following descriptions:

- Novice "N"
- Advanced Beginner "AB"
- Competent "C"

1. **AT 504 A -** Incorporate patient education and self-care programs to engage patients and their families and friends to participate in their care and recovery.

   - Response Required
     - Novice "N"
     - Advanced Beginner "AB"
     - Competent "C"
   
   Additional Comments:

2. **AT 504 B -** Communicate effectively and appropriately with clients/patients, family members, coaches, administrators, other health care professionals, consumers, payors, policy makers, and others.

   - Response Required
     - Novice "N"
     - Advanced Beginner "AB"
     - Competent "C"
   
   Additional Comments:

3. **AT 504 C -** Use systems of quality assurance and quality improvement to enhance client/patient care.

   - Response Required
     - Novice "N"
     - Advanced Beginner "AB"
     - Competent "C"
   
   Additional Comments:
AT 504 D - Develop a care plan for each patient. The care plan includes (but is not limited to) the following:

- Assessment of the patient on an ongoing basis and adjustment of care accordingly
- Collection, analysis, and use of patient-reported and clinician-rated outcome measures to improve patient care
- Consideration of the patient’s goals and level of function in treatment decisions
- Discharge of the patient when goals are met or the patient is no longer making progress
- Referral when warranted

Response Required

- Novice "N"
- Advanced Beginner "AB"
- Competent "C"

Additional Comments:

AT 504 E - Evaluate and manage patients with acute conditions, including triaging conditions that are life threatening or otherwise emergent. These include (but are not limited to) the following conditions:

- Cardiac compromise (including emergency cardiac care, supplemental oxygen, suction, adjunct airways, nitroglycerine, and low-dose aspirin)
- Respiratory compromise (including use of pulse oximetry, adjunct airways, supplemental oxygen, spirometry, meter-dosed inhalers, nebulizers, and bronchodilators)
- Conditions related to the environment: lightning, cold, heat (including use of rectal thermometry)
- Cervical spine compromise
- Traumatic brain injury
- Internal and external hemorrhage (including use of a tourniquet and hemostatic agents)
- Fractures and dislocations (including reduction of dislocation)
- Anaphylaxis (including administering epinephrine using automated injection device)
- Exertional sickling, rhabdomyolysis, and hyponatremia
- Diabetes (including use of glucometer, administering glucagon, insulin)
- Drug overdose (including administration of rescue medications such as naloxone)
- Wounds (including care and closure)
- Testicular injury
- Other musculoskeletal injuries

Response Required

- Novice "N"
- Advanced Beginner "AB"
- Competent "C"

Additional Comments:
AT 504 F - Perform an examination to formulate a diagnosis and plan of care for patients with health conditions commonly seen in athletic training practice. This exam includes the following:

- Obtaining a medical history from the patient or other individual
- Identifying comorbidities and patients with complex medical conditions
- Assessing function (including gait)
- Selecting and using tests and measures that assess the following, as relevant to the patient's clinical presentation:
  - Cardiovascular system (including auscultation)
  - Endocrine system
  - Eyes, ears, nose, throat, mouth, and teeth
  - Gastrointestinal system
  - Genitourinary system
  - Integumentary system
  - Mental status
  - Musculoskeletal system
  - Neurological system
  - Pain level
  - Reproductive system
  - Respiratory system (including auscultation)
  - Specific functional tasks

Evaluating all results to determine a plan of care, including referral to the appropriate provider when indicated.

- Response Required
- Novice "N"
- Advanced Beginner "AB"
- Competent "C"

Additional Comments:

AT 504 G - Educate patients regarding appropriate pharmacological agents for the management of their condition, including indications, contraindications, dosing, interactions, and adverse reactions.

- Response Required
- Novice "N"
- Advanced Beginner "AB"
- Competent "C"

Additional Comments:
8. Administer medications or other therapeutic agents by the appropriate route of administration upon the order of a physician or other provider with legal prescribing authority.

- Response Required
  - Novice "N"
  - Advanced Beginner "AB"
  - Competent "C"

9. Plan and implement a comprehensive preparticipation examination process to affect health outcomes.

- Response Required
  - Novice "N"
  - Advanced Beginner "AB"
  - Competent "C"

10. Develop, implement, and supervise comprehensive programs to maximize sport performance that are safe and specific to the client's activity.

- Response Required
  - Novice "N"
  - Advanced Beginner "AB"
  - Competent "C"

11. Develop, implement, and revise policies and procedures to guide the daily operation of athletic training services.

*Examples of daily operation policies include pharmaceutical management, physician referrals, and inventory management.
