Any request for change in this Course Sequence (CS) must be approved by the academic advisor. Any consequence relating to changes in this document are the responsibility of the student. The department reserves the right to change the order in which classes are offered.

*CSD 405 or equivalent is prerequisite for CSD551, CSD552, CSD558, CSD652 and CSD653. If prerequisite is not met, it is added to the first semester's courses and CSD651 and CSD515 are taken in Fall, yr 2. In this case, the total number of graduate credits required will increase by 3.

** Prerequisite for the 1st practicum is completion of all previous CSD academic coursework noted on CS, completion of all Foundational requirements, and completion of 25 documented clinical observation hrs. Prerequisite for each subsequent practicum is successful completion of preceding practicum and a completed Practicum/Externship Information form and Registration Checklist form. If the final earned credit(s) in CSD 602 is less than 3 in any semester, additional credits will be required in future semesters. CSD 602 requires a total of 9 earned credits with a grade of B or better.

***Students may complete two 3-credit electives or, with advisor approval, a research project, or a combination of these options.

****Prerequisite for the externship is successful completion of all academic and clinical practicum courses.
