Applicants shall submit an essay of 500 words describing future goals and how this scholarship will assist them in becoming successful.

Native American Health Sciences Scholarship (1264) - housed in the Office of Scholarships & Financial Aid but for CEFNS students
This fund shall be used to support minority students who are pursuing a degree leading to postgraduate studies in the Health Sciences or Professions leading to the Health Sciences. The latter could include but is not limited to Nursing, Medicine, Public Health, Dentistry, Veterinary Sciences, and the Biological Sciences. The Goal of this award is to improve student retention and academic success.

This Fund shall be used to support undergraduate Native American Students although other minority students or any student with a specific need could be selected by a Scholarship Committee for awards. The student must be enrolled at Northern Arizona University as a Freshman, Sophomore, Junior, or Senior. The student must have completed one semester (12 hours) towards a degree to be eligible to apply and receive a scholarship award. The Committee will develop an application form that requires students to write an essay describing how they would benefit from the Award.

Oswalt Memorial Scholarship Exercise Science (1580)

This Fund shall be used to support a junior or senior female student majoring in health education, physical education, exercise science, or nutrition. The student must show academic achievement, financial need and have a 3.0 minimum GPA.
