

Date	Speaker Name	Title	Speaker Instution
22-Jan	Molly Womack	The Skin and Bones of Frog Evolution	Utah State University
5-Feb	NAU Career Services	Post Graduaution Career Resources	Northern Arizona University
12-Feb	Justin Conover	Deciphering the 4N Language of Polyploid Plant Genome Evolution	University of Arizona
19-Feb	Paul Whitefield	Competing for internal NPS funds to implement scientific studies and ecological restoration projects	National Park Service
26-Feb	Dr. Dylan Cohen	Job Talk - Understanding the drivers of evolutionary change from populations to species	Northern Arizona University
4-Mar	Dr. Richard Hodel	Job Talk - Decoding phenotypes: herbaria reveal drivers of plant evolution	Northern Arizona University
11-Mar	SPRING BREAK	NO SEMINAR	NA
18-Mar	Dr. Isaac Lichter-Marck	Job Talk - Origin and evolution of plants in a desert archipelago: an integrative approach	Northern Arizona University
25-Mar	Amy Whipple	Pinyon pine on a changing landscape	Northern Arizona University
1-Apr	Mark Salvatore	Remote Sensing of Antarctic Ecosystems: Techniques, Challenges, and Astrobiological Applications	Northern Arizona University
8-Apr	Bret Pasche	Animal Communication and Sensory Ecology	University of Arizona
15-Apr	Gery Allan	Macrosystems Biology	Northern Arizona University
22-Apr	Paul Keim	Bacteria and the biological species concept – Gene flow and exploring introgression barriers between <i>Campylobacter</i> species	Northern Arizona University
29-Apr	Genevieve Noyce	Plants, Microbes, and Ecosystems in a Changing World	Smithsonian Environmental Research Center
6-May	Heather Gillette	Dissertation Defense	Northern Arizona University
