

siccs-grd@nau.edu

School of Informatics, Computing, and Cyber Systems PhD program offers an innovative option in Health- and Bio-informatics

About our Program

Our students and faculty engage in a broad range of collaborative research projects with academic, governmental, and non-profit partners. Our areas of strength include:

- Computational Biology
- Pathogen Detection
- Disease Epidemiology
- Molecular Evolution
- Infectious Disease Research
- Multi-Pathogen Communities
- Phylogenetics
- Comparative Genomics
- Cancer Evolution
- High Performance Computing

Available Programs

Recruitment is open for Fall 2021 for students interested in Health- and Bio-informatics graduate programs at NAU. Eligible career paths include:

- Informatics PhD (Bioinformatics emphasis)
- Informatics MS

Our Campus

Our campus is located at the base of the San Francisco Peaks in the beautiful, historic mountain town of Flagstaff, Arizona. Flagstaff offers an ideal, scenic environment for living and learning. With world-class faculty, four-season climate, amazing landscapes, and ample sunshine, you'll discover a perfect environment live and learn.

Funding Opportunities

- Presidential fellowship
- Faculty research grants
- Teaching assistantships
