About the Concurrent Enrollment Program

Maricopa Nursing and NAU are proud to have created the first Concurrent Enrollment Program (CEP) in the state and one of the first ever in the nation, in 2011. With more than 1,000 BSN CEP graduates, NAU is a proven leader in BSN completion course delivery. NAU started CEP and we have determined what it takes to help students be confident and successful.

Program Information and Requirements

NAU CEP offers a 90/30 credit split, this means that you can transfer in 90 credits and you will need to complete just 30 credits at NAU to meet the BSN requirements. NAU is the only CEP partner that will accept 90 community college transfer credits. All NAU classes are completed online with the exception of 1 course that will have an optional in-person meeting in the Phoenix area during the first semester of the program. Students will **not** have to travel to Flagstaff at any time to complete any part of the NAU CEP. The NAU BSN is accredited by the Commission on Collegiate Nursing Education (CCNE).

Health and Safety Requirements

Maricopa Nursing and NAU's School of Nursing have Health and Safety Requirements that must be met prior to enrolling and participating in any clinical experiences. Healthcare agencies throughout the state require vaccinations, titers, and other healthcare related requirements. Examples of these requirements are background checks, CPR, drug and nicotine testing, etc. These requirements are subject to change per healthcare agency contracts with the educational institution and students must be compliant with agency requirements prior to and throughout the program. These are part of the Maricopa Nursing requirements, and you will supply your documentation to your Maricopa Nursing advisor.
